Delaney Beier counsels clients on a wide variety of environmental matters arising out of agency proceedings, enforcement actions, citizen suits, permitting, compliance and due diligence matters, transactions, brownfield redevelopment, and litigation. She has handled matters in all environmental media, including air, land, waste, and water, and represents clients in many different industries ranging from large companies to small, local businesses.

Delaney works to find practical solutions to the complex issues her clients face under various environmental laws and programs. This includes the Comprehensive Environmental Response, Compensation, and Liability Act/Superfund, the Clean Water Act, the Clean Air Act, the Endangered Species Act, the Resource Conservation and Recovery Act, the Toxic Substances Control Act, and various state counterparts. She has worked with the U.S. Environmental Protection Agency and the Alabama Department of Environmental Management, as well as other federal, state, and local environmental agencies, to help clients achieve desirable results in enforcement actions brought under these environmental laws and programs. In addition, Delaney has experience with accidental releases and the various reporting requirements to the U.S. Chemical Safety and Hazard Investigation Board and the National Response Center.
