

Tom Fendley, PE

Tom Fendley is a Senior Principal Environmental Engineer based in Georgia with more than 30 years of experience focused on civil/infrastructure design, construction engineering and contract administration, water resources engineering, and stormwater management.

Tom has worked extensively with a wide variety of public and private sector clients, including the City of Atlanta, the City of Gainesville, Forsyth County, Gwinnett County, Cobb County, Athens-Clarke County, the Clayton County Water Authority, and the Georgia Department of Transportation. Other key clients include the U.S. Army Corps of Engineers (USACE), Lockheed Martin, and CSX Transportation.

Specializing in water resources and stormwater management, Tom's projects include the development and implementation of municipal stormwater management plans, drainage improvements, natural treatment systems, stream and ecosystem restoration, watershed analysis, and hydrologic and hydraulic (H&H) studies. He has designed numerous projects involving stormwater best management practice (BMP) facilities, providing water quality treatment in accordance with the Georgia Stormwater Management Manual. He has comprehensive experience with National Pollutant Discharge Elimination System (NPDES) permitting, USACE permitting, Georgia Environmental Protection Division stream buffer regulations, and local jurisdiction approval processes. Tom also provides litigation support and expert testimony related to engineering and water resources issues.

As a senior project manager and client service manager, Tom has considerable experience in assisting clients with project planning and budgeting including long-term master planning, formulation of design alternatives, and development of alternative approaches to project delivery. He has successfully utilized these skills and his experience throughout his career in preparation of design plans and specifications, cost estimating, construction contract administration, and other client needs and services.

CAREER SUMMARY OF TOM FENDLEY, PE

Specialties:

Watershed and Stormwater Management; Water and Natural Resources Conservation and Restoration; Erosion and Sediment Control

Practice Areas:

Water and Natural Resources

Disciplines:

Civil Engineering, Construction Management, Water Resources

Education:

B.S., Civil Engineering, Georgia Institute of Technology, 1982

Registration:

Georgia Professional Engineer, 023551
